On May 21, 2023, SHPD received a cybertip from ICAC regarding possible child pornography from an incident that took place on February 6, 2023. The cybertip # is 154662472. The case was turned over to SHPD and assigned to myself, as the case investigator. A few subpoenas were obtained from ICAC and revealed from the provider, Spectrum, that the IP address associated with the cybertip was that of Dean Seigneur, residing at 10744 Valley View Road, Apartment B6. The IP address for the downloaded file came from 2603:6010:9d01:bde:e264:454:3b17:c06. There was a phone number and several email addresses associated with the cybertip, which I was able to obtain subpoenas for.

The cybertip revealed 1 (one) downloaded jpg. of apparent child pornography, and was file: 880d5cld-e45d-4e3b-af1c-36d81d57b254. Upon viewing this file, it shows a white young pre-pubescent female approximately 6-7 years old, having intercourse with a white male inside of her. This file was viewed and verified by myself before obtaining the search warrant for the residence. The file and subscriber name came back to a Dean Seigneur at 10744 Valley View Road, B6, in Sagamore Hills, Ohio 44067.

The subpoena obtained for the email address of deanseigneur@yahoo.com, yielded a phone number of 330-467-8710, which is that of Dean Seigneur, created September 4, 2000. This same phone number is the phone number that John Dean Seigneur uses when having contact with him. Another email address of seigneur0@lycos.com came back to a Dean Seigneur, with the billing address of 213 Timberlane Drive, Northfield Center, Ohio 44067. This address belongs to John Dean Seigneur's father, where all billing is sent to.

Once most of the subpoenas have been obtained, a search warrant was obtained by Judge Coates from Stow Municipal Court. The search warrant was executed at 0700 hours on Wednesday, July 23, 2023. The search warrant was executed by Lt. Rice, Det. Clark, Ptl. Lucore and myself. There were a total of 13 items seized from the residence and 7 of those items will be submitted to ICAC for forensic analysis. The remaining items were logged into evidence and placed in locker #1.

Myself and Det. Clark took 7 items to ICAC and turned them over, with a copy of the search warrant. Upon speaking to the suspect, John, he admitted to having a significant amount of child porn videos downloaded on his silver Acer laptop. Lt. Rice will be completing a separate investigative regarding his correspondence with John. This case will remain open and charges will be pending the results of the forensic analysis from ICAC.

There is body camera footage available and no victims assistance information required.

While conducting the search warrant at John Seigneur's residence, I read John his Miranda rights and he stated he wanted to talk. I asked him if he had an illegal child porn on any of his electronic devices which included his cell phones and laptops. John looked confused and said no way, but then he started to open up. John said he had approximately 200 to 300 pictures of young children. I asked how old where they were and he said around 8 years of age. I told John that this was illegal to obtain and have possess of any sexual pictures of young children. John didn't think that was illegal because the pictures were on the internet.

John told me he googled for young naked pictures of children and they just appeared on his silver acer laptop. I asked him if he belongs to any chat groups or shares the photos with any of his friends and he stated no, I just download them.

On November 6, 2023, I contacted ICAC and they advised the report was done and ready for pickup. I went down and retrieved the items. Upon coming back to SHPD, 5 of the 7 items taken to ICAC were separated and placed in a separate bag to be returned to the suspect, as they did not have any illegal contraband on them. There were 2 items, a blue HP Laptop and a silver Acer laptop, that contained illegal contraband and will be held for evidence.

The report and forensics on the silver Acer laptop revealed 317 (three hundred seventeen) items of child abuse material and 46 (forty-six) items of child exploitation material. The blue HP laptop revealed 3 (three) items of child abuse material and 11 (eleven) items of child exploitation material. The images and items were viewed by myself and confirmed what the ICAC forensic report stated.

I will be submitting the report and findings to the Summit County Prosecutor for a direct indictment on this case.
